Michael Rodriguez

Senior Software Engineer - Full Stack

Austin, TX | (512) 441-9082 | m.rodriguez.code@gmail.com | linkedin.com/in/mrodriguez-dev | github.com/mrodriguez-cloud

PROFESSIONAL SUMMARY

Senior Software Engineer with 5+ years of production experience developing distributed backend services, high-performance web applications, and database engines. Highly skilled in Python, JavaScript, REST APIs, SQL, OOP, and Git. Experienced working in Agile squads with Docker containerization, automated Unit Testing, and CI/CD pipelines.

CORE TECHNICAL SKILLS

Languages:	Python, JavaScript, SQL, HTML, CSS
Backend & APIs:	REST APIs, FastAPI, Django, Node.js, Express
Databases:	Databases, PostgreSQL, SQL, MySQL, Redis
DevOps & Quality:	Git, Docker, CI/CD, Unit Testing, OOP, Agile

PROFESSIONAL EXPERIENCE

Senior Software Engineer • DataPeak Solutions *2021 - Present | Austin, TX*

- Designed and shipped cloud microservices in **Python** and **JavaScript**, handling 40,000 requests per minute.
- Architected high-throughput **REST APIs** backed by PostgreSQL **Databases** and optimized **SQL** execution plans.
- Integrated **Docker** containers into continuous integration **CI/CD** workflows, reducing build failures by 50%.
- Spearheaded comprehensive **Unit Testing** initiatives and adherence to **OOP** patterns across engineering squads.
- Collaborated in daily **Agile** standups and sprint planning to deliver enterprise features.

Software Developer • TechFrontier Inc *2019 - 2021 | Dallas, TX*

- Engineered interactive web components using **JavaScript** and connected them to **Python** backend endpoints.
- Managed relational **SQL** schemas, wrote migrations, and implemented caching layers.
- Collaborated via **Git** branches, code reviews, and contributed to **Problem Solving** complex distributed bugs.

EDUCATION & CREDENTIALS

B.S. in Computer Science & Engineering • University of Michigan *2015 - 2019 | Ann Arbor, MI*

Certifications: HashiCorp Certified: Terraform Associate
