Priya Sharma

Full Stack Software Engineer

New York, NY | (646) 302-8819 | priya.sharma.dev@gmail.com | linkedin.com/in/priyasharma-eng | github.com/priyasharma-code

PROFESSIONAL SUMMARY

Proactive Full Stack Engineer with 4.5 years of industry experience building scalable web solutions. Proficient in Python, JavaScript, REST APIs, SQL, OOP, and modern Databases. Strong hands-on background in containerizing microservices with Docker, implementing automated Unit Testing, and maintaining CI/CD deployment pipelines within Agile/Scrum teams.

CORE TECHNICAL SKILLS

Stack:	Python, JavaScript, REST APIs, SQL, Databases, Git
Frameworks:	React, FastAPI, Django, Node.js
Infrastructure:	Docker, CI/CD, Linux, AWS
Concepts:	OOP, Unit Testing, Scrum, Agile, Problem Solving

PROFESSIONAL EXPERIENCE

Full Stack Engineer • Catalyst Labs *2022 - Present | New York, NY*

- Developed full-stack web applications using **Python**, **JavaScript**, and modern UI components.
- Constructed scalable **REST APIs** and normalized **SQL** data structures across enterprise **Databases**.
- Automated integration testing and deployment pipelines using **Git**, **Docker**, and **CI/CD** tooling.
- Implemented rigorous **Unit Testing** suites achieving 88% code coverage across all core services.
- Actively engaged in **Agile** and **Scrum** sprint cycles with cross-functional product teams.

Software Developer • CloudSphere Solutions *2020 - 2022 | Boston, MA*

- Built backend services and database access layers using **Python** and **SQL**.
- Assisted frontend team with **JavaScript** asynchronous data fetching and state management.
- Diagnosed production performance issues using systematic **Problem Solving** and **OOP** design.

EDUCATION & CREDENTIALS

B.Tech in Computer Science & Engineering • National Institute of Technology / Columbia MS Coursework *2016 - 2020 | New York, NY*
