David Kim

Backend Software Engineer

Chicago, IL | (312) 604-1188 | david.kim.backend@gmail.com | linkedin.com/in/davidkim-backend | github.com/dkim-python

PROFESSIONAL SUMMARY

Backend Software Engineer with 4 years of experience specializing in Python distributed systems, REST APIs, and database engineering. Deep knowledge of relational SQL, Databases, OOP design patterns, Docker containerization, and Unit Testing. Passionate about system performance, asynchronous workflows, and Agile delivery.

CORE TECHNICAL SKILLS

Backend Languages:	Python, SQL, Go (basic), Bash
APIs & Systems:	REST APIs, FastAPI, Django, Databases, PostgreSQL
DevOps & Quality:	Docker, CI/CD, Git, Unit Testing, OOP
Process:	Agile, Scrum, Problem Solving, Code Review

PROFESSIONAL EXPERIENCE

Backend Software Engineer • CoreScale Systems *2021 - Present | Chicago, IL*

- Designed high-performance microservices and **REST APIs** in **Python** handling 5M daily queries.
- Optimized relational **Databases** with complex **SQL** indexing, decreasing database CPU utilization by 35%.
- Built **Docker** containerized deployment pipelines integrated with **Git** and **CI/CD**.
- Applied clean **OOP** architecture and authored extensive **Unit Testing** test suites.
- Participated in daily **Agile** standups and sprint planning sessions.

Python Developer • Infotech Solutions *2020 - 2021 | Urbana, IL*

- Developed backend data integration scripts and scheduled tasks in **Python**.
- Wrote complex **SQL** queries and maintained database integrity across staging and production.
- Utilized **Git** for team version control and defect resolution.

EDUCATION & CREDENTIALS

B.S. in Computer Science • University of Illinois Urbana-Champaign *2016 - 2020 | Urbana, IL*
