CORE TECHNICAL SKILLS

Frontend & UI: JavaScript, React, HTML, CSS, Redux

Backend & APIs: REST APIs, Node.js, Python (FastAPI/Flask)

Data & Tools: SQL, Databases, PostgreSQL, Git, Unit Testing

Methodology: OOP, Agile, Problem Solving

PROFESSIONAL EXPERIENCE

Web Application Engineer • WebSphere Studios *2021 - Present | Denver, CO*

- Engineered rich, interactive client applications in **JavaScript** (React) connected to backend **REST APIs**.
- Developed supporting **Python** backend endpoints and integrated with relational **SQL Databases**.
- Practiced strict **OOP** modularity and wrote automated **Unit Testing** using Jest and Pytest.
- Managed code branching, peer reviews, and release tags using **Git**.
- Collaborated closely with product designers within an **Agile** framework.

Junior Developer • ByteCraft Technologies *2020 - 2021 | Boulder, CO*

- Constructed reusable **JavaScript** UI widgets and consumed external **REST APIs**.
- Wrote database queries in **SQL** and assisted with system documentation.

EDUCATION & CREDENTIALS

B.S. in Information Technology • Purdue University *2016 - 2020 | West Lafayette, IN*
