Ananya Patel

Cloud & Backend Developer

San Jose, CA | (408) 555-4921 | ananya.patel.cloud@gmail.com | linkedin.com/in/ananyapatel-cloud | github.com/apatel-dev

PROFESSIONAL SUMMARY

Software Developer with 4 years of experience focusing on cloud microservices, backend Python APIs, and distributed data systems. Hands-on experience with SQL, Databases, Docker containers, CI/CD automation, and Git. Strong technical problem solving and OOP foundations.

CORE TECHNICAL SKILLS

Languages:	Python, SQL, Bash
Cloud & DevOps:	Docker, CI/CD, Git, Databases, AWS
Backend:	REST APIs, OOP, Unit Testing, Agile, Problem Solving

PROFESSIONAL EXPERIENCE

Cloud Application Developer • SkyHigh Data Systems *2021 - Present | San Jose, CA*

- Engineered cloud backend microservices using **Python** and published secure **REST APIs**.
- Automated container build and test workflows with **Docker**, **CI/CD**, and **Git**.
- Maintained transactional **Databases** with structured **SQL** schemas and data validation.
- Leveraged **OOP** design patterns and performed **Unit Testing** across all core modules.

Associate Developer • Zenith Systems *2020 - 2021 | Santa Clara, CA*

- Wrote automated data ingestion pipelines in **Python** and queried **SQL** databases.
- Collaborated with sprint teams using **Agile** methodology.

EDUCATION & CREDENTIALS

B.S. in Computer Engineering • San Jose State University *2016 - 2020 | San Jose, CA*
